

MAERSK SEALAND BRINGS ASIA, EUROPE, & THE MIDDLE EAST CLOSER THAN EVER FOR CHILE'S PRODUCE GROWERS!

Maersk Sealand with partner Able Freight Services Inc. now offers the **Chile Sea-Air Express**-a new ocean and air refrigerated transportation service linking Chile with Asia, Europe and the Middle East.

Reliable, fast and easy, the **Chile Sea-Air Express** combines the refrigerated transportation expertise of Maersk Sealand and Able Freight Services, Inc. to ensure your perishables reach Asia, Europe and the Middle East quickly and more competitively than ever - all under one easy Maersk Sealand bill of lading!

HOW THE CHILE SEA-AIR EXPRESS WORKS:

- Maersk Sealand coordinates the transportation of your reefer container from San Antonio, Chile onboard Maersk Sealand's TA3/Andean vessel service, departing every Sunday and arriving 18 days later at Los Angeles, CA and 12 days later at Miami, FL.
- Your cargo is then handled by Able Freight Services, Inc. from Maersk's Los Angeles, CA or Miami, FL terminal to its final destination at major airports in Asia, Europe or the Middle East within 48 hours.

CHILE SEA-AIR EXPRESS FEATURES:

- One Sea-Air bill of lading for reefer transportation simplifies the process for customers.
- An expeditious transportation solution which reduces the transit time by 2-3 weeks. This means your products are available longer, maximizing your profitability.

THE MAERSK SEALAND - ABLE FREIGHT SERVICES, INC ADVANTAGE

- Both organizations possess all the equipment to ensure your cargo is constantly moving within the confines of an unbroken cool chain.
- Additionally, Maersk Sealand & Able Freight Services, Inc. have highly dedicated & experienced personnel specializing in temperature sensitive transportation and logistics.
